6503242	General			00800A Wage Determination
Comment Classification: Unclassified\\For Official Use Only (U\\FOUO)				
<p>Under Section 00800A Wage Determination, the only skilled labor classification provided is for a Painter which requires a minimum compensation of \$19.50/hr plus a fringe of \$8.83 (\$28.33/hr total).</p> <p>We are not aware of any painting that would require this classification, however there will be substantial hours for other skilled labor classifications such as carpenters and concrete finishers.</p> <p>Please clarify if other skilled labor positions such as carpenters and concrete finishers will be required a minimum \$28.33/hr compensation.</p> <p>On: May 03 2016.</p>				
	Government Response. . The Agency does not make determinations regarding wage rates. Department of Labor (DOL) makes the final determination on such matters. Please refer to Section 00800A (Pages 236-246) of the solicitation for DOL guidance on adding required classifications to the current project wage determination On: May 17 2016

6513526	Civil		para 3.2.2.2f	31 41 16
Comment Classification: Unclassified\\For Official Use Only (U\\FOUO)				
<p>Specification Section 31 41 16 Metal Sheet Piling, paragraph 3.2.2.2.f states that "Installation of the cofferdam sheet piles to the design tip elevation is required for this project. Pilings shall be driven to the depths shown and shall extend up to the elevation indicated for the top of pilings." We request clarification if proposers may purchase longer sheets and drive them beyond minimum tip elevation for the Phase 1 cofferdam. This would allow for cutting the tips off of the Phase 1 sheets (if tips are damaged) and reusing them in Phase 4. We believe this would be consistent with the intent of Specification Section 01 11 00, 1.3.1 Project Description that states "After completion of S-291 construction, the sheetpiles will be pulled out and re-installed at the old IP-3 lakeside and landside for IP-3 abandonment in the dry." The elevation of the top of the sheet piling would always meet the elevation indicated on the plans.</p> <p>On: May 10 2016.</p>

Factor 4 of Proposal submission Specification 00100A-21 ; e. Responsibility Determination (Attachment 8)...asks for EMR for years 2014, 2015, 2016; Shouldn't this be required EMR for years 2013, 2014, and 2015 as the current year of 2016 would not be completed yet and therefore not yet reported until at the earliest End of September? Please advise.				
On: May 16 2016.				
	Government Response. . EMR Request years are correct. As most companies year end for this type of reporting is every 6 months. I will change the required yearS (2013, 2014, AND 2015) to accommodate contractors whom reporting year is September to September. Please see Amendment 0003 forth coming. On: May 19 2016
